

NON-WOVEN DRUM

CHEMITOOL Non-Woven Drum allows a superior finish of various types of materials.

- ✓ **Flexibility**
- ✓ **Excellent adaptation to contours**
- ✓ **Cool grinding and low thermal load of the workpiece**
- ✓ **No tool clogging**
- ✓ **Highly resistant**
- ✓ **Long tool life**

CHEMITOOL Non-Woven Drum is composed of Non-Woven (Scotch) and provide a wide variety of decorative finishes in stainless steel, aluminum, copper, bronze and many other materials. Suitable for roughening, deburring, surface work, cleaning, structuring (matt finishing, brush matting and satin finishing) and fine grinding in multiple steps. The non-woven abrasive can be used for wet or dry roughing.

For the best results, we recommend using at a speed of 15-30 m/s. This provides an ideal compromise between stock removal rate, surface quality, thermal load on the workpiece and tool wear.

Abrasive

Non-Woven (Scotch)

Suitable for

Aluminium, Brass, Copper, Nickel, Stainless Steel (INOX) and Titanium, Ceramic, Glass and Plastic

Suitable Machines

Sanding Roller
