BOOT MEGARA OB SRA

CHEMITOOL Boot MEGARA OB SRA is a general-purpose overshoe with a PVC upper and sole designed to be strong and comfortable. Suitable for different types of work in Industry and the Agricultural sector thanks to its excellent characteristics: comfortable, high wear resistance, non-slip sole, and shock absorption on the heel.

- ✓ Suitable for several uses in the agricultural and industrial sector
- ✓ Antibacterial, abrasion-resistant jersey lining
- ✓ Non-slip sole with shock absorption in the heel area

TECHNICAL SPECIFICATIONS

COMPOSITION	PVC/NITRILE
Toecap	Without toe
Anti-perforation insole	No insole
Upper	PVC
Lining	Jersey
Sole	Nitrile
Color	Black
Sizes	36-48

NON-METALLIC NO METALLIC COMPONENTS

- NÃO METÁLICO SEM COMPONENTES METÁLICOS
- NO METÁLICO SIN COMPONENTES METÁLICOS

OIL RESISTANT SOLE OIL AND HYDROCARBON RESISTANT

- SOLA RESISTENTE A ÓLEOS E HIDROCARBONETOS
- SUELA RESISTENTE A ACEITES E HIDROCARBUROS

SLIP RESISTANT SRA

- SRA SOLA ANTIDESLIZANTE
- SRA SUELA ANTIDESLIZANTE

MAINTENANCE AND STORAGE CARE

You must follow these guidelines to allow that your footwear keeps its quality and extend its durability.

- When taking off your shoes, let your footwear air out before storing them.
- You should always keep your shoes dry and preferably clean. You can place a sheet of newspaper or absorbent paper inside the shoes to absorb the moisture from sweating. It prevents bad odors and the creation of bacteria that can cause fungus.
- You must not use the same shoes twice in a row! The shoes must have time to completely dry the sweating that they have absorbed during the day. If they are damp, can develop bacteria causing unpleasant odors and, even more serious, the proliferation of fungus and consequently diseases, such as unwanted mycoses.
- Clean regularly with a brush or cloth to prevent accumulation of dirt and preferably wash them at least once a month. Never put in a washing machine or dryer.
- Regularly disinfect the shoe inside with a suitable spray, you can also use isopropyl alcohol or baking soda.
- Wash the insole regularly and change it when it is not in its proper condition.
- Shoes should be stored in their original packaging in a cool, dry place and away from light.

HOW TO CLEAN THE BOOT

- The ideal is to clean your boots regularly, after each use, with water and detergent using a soft brush. It should be rinsed with abundant water and let dry at room temperature and in the shade.

HOW TO CLEAN THE INSOLE

- It is important to clean and replace regularly the insole to prevent the proliferation of bacteria. When replacing it, ensure that you are using an insole like the original.
