

# ALUMINIUM TOUCH-UP PENCIL

**CHEMIBRUSH**
**Aluminium Touch-UP  
Pencil**

## PRODUCT DESCRIPTION

**Aluminium Touch-UP Pencil** - High performance acrylic paint, ideal for lacquering or retouching aluminium and metal parts, excellent quality.

Applicable on metal, wood, glass, stone, ceramic, cardboard box and many coated hard plastics.

## CHARACTERISTICS

- ✓ Weatherproof and UV-resistant, non-fading.
- ✓ Excellent adhesion, coverage and filling.
- ✓ High acrylic quality
- ✓ Very good colour match
- ✓ Long lasting gloss
- ✓ High surface hardness and good elasticity
- ✓ Good flow, smooth surface
- ✓ Fast drying
- ✓ Suitable for indoor and outdoor applications
- ✓ Polished, dirt-resistant surface
- ✓ Scratch, shock and impact resistant.

## TECHNICAL SPECIFICATIONS

Properties	Value	
Chemical Base	Acrylic Copolymers	
Odour	Solvent	
Glossiness (60° measurement according to DIN 67530): <b>Glossy</b>	80-85 gloss units	
Drying time (a 20°C, 50% HR):	Dust-Dry	After 10 minutos
	Dry to touch	After 40 minutos
	Cured	After approx. 24 horas
	Drying time depends on ambient temperature, air humidity and thickness of the applied layer.	
Temperature resistance	Up to 110°C	
Application temperature	Between +5°C and +35°C	
Size	12 ml	
Colours	14 colours available	

## **APPLICATIONS**

Especially recommended for lacquering and retouching aluminium and metal parts, but also has excellent adhesion on wood, glass, stone, ceramic, cardboard box and many hard plastic coatable materials.

It eliminates small scratches or cracks on various types of materials used for work in industry, DIY, decoration, handicrafts...

It can be used both indoors and outdoors.

## **METHOD OF APPLICATION**

### **PREPARATION**

- The surfaces must be very clean and dry, degreased and free of friable particles that could hinder adherence.
- The retouching brush must be at room temperature. The best application temperature is between 10 and 25°C.
- Before use, shake the bottle for 3 minutes to mix the paint pigments well.

### **APPLICATION**

- Make a test to check the colour match.
- Apply the product in several thin layers, wiping the brush lightly so that no product drips off.
- Allow to dry.
- Drying time depends on the ambient temperature, air humidity and the thickness of the layer applied.

## **RESTRICTIONS OF USE**

Do not use on synthetic paints.

## **SAFETY INFORMATION**

For information and advice on the safe handling, storage and disposal of chemicals, the user should refer to the most recent version of the Product Safety Data Sheet containing physical, ecological, toxicological and other safety-related data.

## **STORAGE CONDITIONS AND SHELF LIFE**

Store in a cool, dry, well-ventilated environment between +5°C and + 25°C, away from sources of heat and moisture. Shelf life 5 years if stored under recommended conditions, as shelf life may be shortened.
