

CERAMIC GRINDING WHEEL - PINK

The CHEMITOOL pink ceramic grinding wheel is suitable for sharpening and finishing on products with high tensile strength. Due to the self-sharpening process of the abrasive, the tool constantly maintains excellent cutting ability. This results in a faster working process and less effort.

- ✓ **Excellent sharpening ability**
- ✓ **Effective finishing**
- ✓ **Long tool life**
- ✓ **Pink (Use on high strength products)**
- ✓ **Available from 350mm size**

CHEMITOOL ceramic grinding wheels are made from aluminium oxide of excellent quality and good wear resistance.

Suitable for sharpening on materials that require a good quality cutting finish, as well as preparing the surface to be machined. High material removal rate, maintaining a very long service life.

It is recommended to use on stationary grinders and for best results, at a speed of approximately 35 m/s.

Abrasive

Aluminium oxide

Suitable for

High tensile strength tools

Compatible Machines

Stationary bench grinders
