

FLAT WOOD DRILL BIT

The CHEMITOOL flat wood drill bits were developed under careful manufacturing processes, in order to provide the professional with an excellent relation of quality and performance in metal drilling. This drill is distinguished by its excellent quality/value ratio.

- ✓ **Excellent quality/value ratio**
- ✓ **Good drilling performance**
- ✓ **Available from 6,0 to 40mm diameter**
- ✓ **Excellent centering capability**
- ✓ **Ideal for large diameters**
- ✓ **Resistance to breakage**
- ✓ **Long tool life**

The CHEMITOOL flat wood drill bit is made entirely of carbon steel, prepared for drilling in various types of wood

The three cutting blades present in this drill have as main characteristic, fast drilling with an excellent chip removing capacity, as well as a centering point to facilitate the initial cutting point.

Due to its manufacturing process, this drill can be used with impact tools due to the 1/4" hexagonal insert, and it is also possible to use it with 13mm insert tools.

Also available in a set of 8 pieces (12-16-18-20-22-25-28-32mm) in plastic box.

Material

Carbon steel

Suitable for

Wood, wood composites

Compatible Machine

Portable drill, bench drill, impact drill machine

**FAST
CUT**
