

INDUSTRIAL WET AND DRY VACUUM CLEANER

Industrial Hoover for solids and liquids, with a nominal power of 2400W (2x1200W) and a suction power of 23kPa. Hoover designed to guarantee professional cleaning in demanding environments. Equipped with two motors (2x1200W) that allow the working power to be adjusted to the type of cleaning required. The stainless steel waste container guarantees excellent resistance to corrosion and impact. Equipped with a washable HEPA filter that ensures the retention of fine particles that trigger asthma and allergy symptoms.

Fields of application

For professional use, for cleaning offices, rooms and warehouses.

Accessories included

- Flexible hose
- Metal extension tubes
- Sponge filter
- Cotton filter + metal bracket
- Floor brush
- Round brush
- Suction nozzle
