

LIFTING TABLE 800KG

Recommended for lifting, lowering, and transporting to the desired working height. Lifting by means of a hydraulic pedal and lowering by means of a lever. With two fixed wheels and two directional wheels with brake. Easy to operate, the brake keeps the unit stationary in loading and unloading, while the lowering valve provides precise height lowering, reducing effort and fatigue, used for lifting, transporting, positioning, assembling, stacking, and unstacking.

TECHNICAL SPECIFICATIONS

Technical details		
Capacity kg		800
Max. lifting height mm		1000
Min. table height mm		420
Elevation height mm		580
Table dimensions mm		1000x510x50
Total height mm		996
Overall length mm		1150
Wheel diameter mm		150
Weight kg		115
