

REINFORCED WAREHOUSE TROLLEY

Designed to meet the needs of heavy load handling in industrial and warehouse environments. The ideal solution to facilitate the transport and handling of goods in the workplace.

With its robust reinforced frame, our warehouse trolley is built to withstand heavy loads and provide durability and reliability. No matter how heavy the load is, you can count on the equipment's ability to handle it efficiently and safely.

The inclusion of a tipper makes moving loads even more convenient. With the ability to tilt the load platform, you can easily load and unload goods, allowing more ergonomic access and improving stability during transport. This feature ensures a more efficient operation and reduces the risk of damage to loads.

TECHNICAL SPECIFICATIONS

Technical details	
Maximum load	250 kg
Height	1120 mm
Width	520 mm
Tab	160 x 250 mm
Scale	340 x 520 mm
Wheels (pneumatic)	3.00 x 4
