

NON-WOVEN HAND PAD SHEET PROWEB

PROWEB CHEMITOOL abrasive hand pad sheets (non-woven) in rectangular shape were specially developed to provide extraordinary work efficiency, due to their composition in the form of a web, being suitable for sanding from grinding to final finishing.

- ✓ **Excellent quality/value ratio**
- ✓ **Easy to use**
- ✓ **Size 224x154mm**
- ✓ **Approximate thickness of 8mm**
- ✓ **Uniform finish**
- ✓ **Washable and reusable**

The impregnated web-shaped hand pad sheet can be used on the most diverse substrates, such as metal, varnishes, fiberglass and wood coatings.

This type of hand pad sheet allows it to be used for more aggressive sanding as well as fine/ultra-fine finish sanding where flexibility is important to adapt to contours and curved surfaces.

For greater durability, this hand pad sheet can be used wet or dry, depending on the type of finish you want to carry out.

Abrasive
Impregnated aluminium oxide

Suitable for
Metal, varnishes, fiberglass, wood coatings
