

FLEX STAINLESS STEEL SPATULA

Professional high quality stainless steel spatula, maximum duration without deterioration.

Sheets perfectly ground, aligned and polished, excellent flexibility and comfort while working (no backlash).

Soft bi-material handle with polypropylene base and core, excellent joint, very ergonomic and impact-resistant.

For strapping work, finishing plasterboard joints and grouting screw heads.

- ✓ **Unbreakable. Aligned and polished blade, made of stainless steel.**
- ✓ **Does not oscillate. Perfect fixing between handle and blade, with great resistance to screws.**
- ✓ **The most comfortable handle. Ergonomic handle made of two materials with aluminium base and core, very soft to the touch.**

Recommended use:

For strapping and finishing joints. For grouting screw heads.
