

JAPANESE STEEL SPATULA

Professional grouting machine made of high quality steel, maximum durability without deterioration.

Graded, aligned and polished blade, excellent flexibility and comfort while working (no play).

Very ergonomic plastic handle.

For finishing work, two products in one.

- ✓ **Resistant to wear and tear. High quality carbon steel blade. Angled, flush and polished.**
- ✓ **Flexibly and conveniently plasters, smoothes, fills cracks or protruding nails.**
- ✓ **Versatile and lightweight. This putty knife has a very smooth beech handle.**

Recommended use:

Plastering, smoothing, filling cracks.
