

ABRASIVE SPONGE ONE SIDED PROSPONGE WHITE

PROSPONGE WHITE CHEMITOOL one-sided abrasive sponges with a rectangular shape have been specially developed to give extraordinary workability due to their resistance to abrasion, as well as their special aluminium oxide composition.

- ✓ **Excellent quality/value ratio**
- ✓ **Easy to use**
- ✓ **Size 140 x 115mm**
- ✓ **5mm thickness**
- ✓ **Uniform finish**
- ✓ **Super Flexible**
- ✓ **Washable and reusable**

The abrasive sponge can be used on the most diverse substrates, such as primers, fibreglass, varnishes and wood coatings.

This type of one-sided abrasive sponge allows it to be used for jobs that require high flexibility, as well as fine sanding for preparation/steps, right down to micro-sanding to prevent excess penetration of the grain into the surface.

For greater durability, this sponge can be used with water or dry, depending on the type of finish you want.

Abrasive
Aluminium oxide

Suitable for
Varnishes, fibreglass, composite materials, wood coatings

SAP	Grain	Length (mm)	Width (mm)	Thickness (mm)	Backing	Abrasive	Quantity	EAN
