

PROWOOD HAND SANDING SHEETS

PROWOOD CHEMITOOL wood sanding sheet is specially manufactured from good quality aluminum oxide, in order to obtain superior performance in wood and furniture applications.

- ✓ **Great quality/value ratio**
- ✓ **Easy to use**
- ✓ **Format 230x280mm**
- ✓ **Uniform finish**
- ✓ **General use in wood and wood products**
- ✓ **Tear resistant**

The **CHEMITOOL** flat-format wood sanding sheet, with resistant B paper backing, can be used on a wide range of substrates, such as wood, wood composites, coverings and even plasterboard.

This type of sanding sheet allows them to be used for more aggressive sanding, as well as in preparation/step sanding.

Given its dimensions, it can be used in its entirety or, in turn, allows the operator to cut into two formats, 115x280 or 93x230. This makes it possible to make the most of the sanding sheet for use in power tools or hand tools.

It must be used without adding water, only for dry work.

Packed in packs of 50 units, with a plastic coating to increase the durability of the abrasive, not subjecting it to humidity, increasing the longevity of the abrasive.

Abrasive
Aluminum Oxide

Suitable for
Wood, resinous woods, coverings and plasterboard
