CARE AND MAINTENANCE AND STORAGE

Follow these recommendations to ensure that your PPE maintains its quality and prolongs its durability:

Before first use, the cap should be inspected for possible defects that could affect the user's safety;

Periodic checks should be carried out, since climatic variations and incorrect use and packaging can alter the physical and mechanical characteristics of the equipment;

Whenever the cap is subjected to an accident at work, it must be rendered unusable, as its protection is compromised;

Never use a defective cap

INSTRUCTIONS FOR USE

The front brim should be placed forwards to protect the face from falling objects;

The inside is removable so you can take it out and wash it. The inside should be washed with a damp cloth and neutral detergent and left to air dry away from heat sources.

The outside should be washed by hand with lukewarm water and neutral detergent and left to air dry.
