

METALLIC MESH FACE VISOR + AURICULAR

CHEMITOOL Metallic mesh face visor + auricular was designed to provide effective protection from radiation emitted during welding processes, as well as from incandescent particles released during such processes. No switches or batteries are required. The helmet is also equipped with fastener system that can be adjusted to ensure a snug fit for the wearer.

- ✓ **Harness with regulator and sweating band**
- ✓ **Covers the whole face**
- ✓ **Replacement visor available**
- ✓ **Standard EN 1731**
- ✓ **Standard EN 352-1**

Metal mesh visor

The visor consists of metal mesh screen edged in polypropylene, with the width tapering at the bottom of the visor. In the upper part it has 3 holes for the housing of the mounting screws.

Browguard

The semi-circular browguard is manufactured of black polypropylene and includes a narrow brim. The sides contain a section with two holes used to attach the headgear by means of nuts and bolts.

Headgear

The headgear is composed of a harness and adjustment mechanism, manufactured of black injection-moulded polyamide. The harness comprises two parts, an upper cross strap and a contour strap. The length of the cross strap can be adjusted to different positions. The contour strap has a middle section (which rests on the wearer's forehead) and side arms that join at the rear of the head by means of the adjustment system. This system allows easy adjustment of the contour band circumference, by a simple turn of the wing nut.

Ear protector

The headband is constructed of black dye-injected POM and has a variable width between 20 and 30 mm. The entire length of the headband contains a protruding reinforcement rib of 5 mm width. The ends are equipped with two elongated guides to slide the twin ear cup fasteners and adjust the height. The two ear cups are manufactured of black ABS and contain twin black PVC inserts in the middle, used for attachment to the headband while allowing headband mobility.

TECHNICAL SPECIFICATIONS

Material	Polycarbonate/ metal
Size	200 x 320 mm
Harness size	56-64 cm
Packaging	1

SAP	COLOR	EAN
CHS06010103	Black	5604630141437
